CANOE AND KAYAK ERGOMETER

Stereotypical motion of paddle simulation, adjustable and unlimited range of resistance for people of all ages and fitness levels

WEBA Expert Software

EXPERT is unique software designed for everyone, whether competitive athlete or trainer, sports physician or physical therapist, who would like to have control over the measurement and analysis of various detailed sports performance data, all contained in one software package.

Kayak ergometer Science

With WEBA Expert Software

With the Monitor, you can precise measure:

- Time • Pulling Length (cm) • Stroke Rate
- Energy (J) • Power (W) • Speed (m/s)
- Force (N) • Time/500 m • Heart Rate

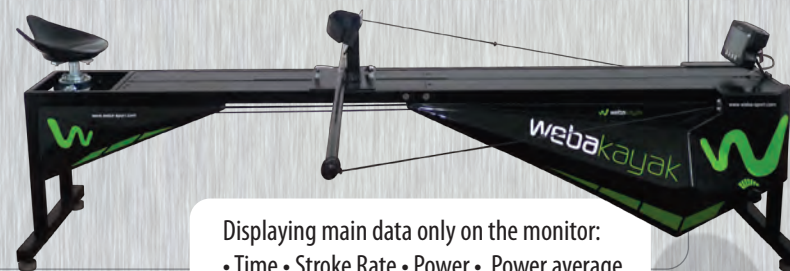

Recording data and transferring to a PC

0:00:23	122
275	276
259	67
0:01:49	153
01:43	
542	

Kayak ergometer Standard

Data display on monitor only

Displaying main data only on the monitor:

- Time • Stroke Rate • Power • Power average

All measured values are related to the one stroke.

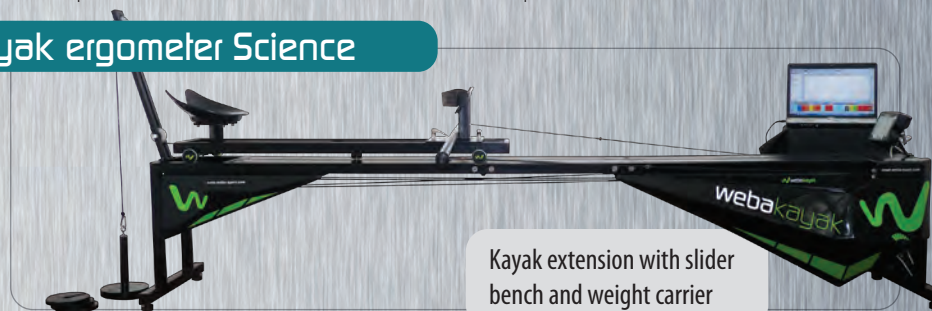

Kayak ergometer Basic

Kayak ergometer simulating without data display

Slider Kayak bench is created for athletes to ensure comprehensive and most faithful paddle simulation.

Slider kayak ergometer Science

Kayak extension with slider bench and weight carrier
